Assignment Day &
Winter Program

PTA Holiday Gala and Silent Auction

We are only one week away from the PTA Holiday Gala at the Shangri-la Hotel. Last year's event was an incredible success, and a lot of fun. This year the proceeds from the Silent Auction will benefit the QISS PTA. You can purchase your ticket to the Gala for 275 rmb per person from the QISS School Development Office.

Hello Grade 2 Parents!

The students have done an excellent job continuing their experiments with matter in the Lower School Science Lab. They have learned about some properties of matter, and how matter can change from one state to another. The students have made predictions about their experiments, and then recorded their findings in their Science Journals. It has been a lot of fun!

In Social Studies, the class has been learning about important inventions and inventors, and thinking about how life would be different without some of these important inventions. This has been a great outlet for the students' creativity, as well as an opportunity for the students to display their knowledge of the material. The students have done some incredible work!

In Math class, the students mastered telling time, and they have been able to demonstrate their skill through a fun game of "Time for Bingo!" The students have to read the time on the clocks to find the correct space, and get five in a row to win. The class also learned how to solve and write number stories using addition, subtraction, and making change with money.
